Brand	AEG
Colour	Graphite Grey
Material	Stainless Steel
Product dimensions	18.3D x 20.1W x 31.4H centimetres
Specific uses for product	Bread

### About this item

- **TOASTED WITH PRECISION** - Different kinds of breads require different warming settings. Choose from seven browning options, for soft brioches or tougher bakes like ciabatta. Broiled to precision, customised with the twist of a dial.
- **DEFROST OR REHEAT WITH PRE-SET PROGRAMMES** - Revive the taste and smell of bakery-fresh breads with the Gourmet 7's reheat programme. Allowing breads to be warmed through, without re-toasting. For breads that have been preserved in the freezer, the defrost function offers a quick solution.
- **WARMING RACK AND ANTI-DUST LID ACCESSORIES** - Positioned on top of the toaster, the rack offers a convenient way to warm breads that are too large to fit inside. It can also be used to keep slices of toast warm and crisp. And when finished, the toasting lid will keep unwanted dust away.
