Author's Note: I thank two anonymous reviewers for their helpful comments.

But it's these subgroups that drive corporate social responsibility. And it's not just the LGBT community. It's also the young, the women, the people of color, the people with disabilities, the people who are poor. These are the groups that are most likely to be affected by corporate social responsibility. And it's these groups that are most likely to be the driving force behind corporate social responsibility.
